

Dr. Nasser Kutkut is a Graduate Faculty Scholar at the College of Engineering at the University of Central Florida (UCF). He received the B.Sc. degree in electrical engineering from the Jordan University of Science and Technology, Irbid, Jordan, in 1989, the M.Sc. degree in electrical engineering and computer science from the University of Illinois, Chicago, in 1990, the Ph.D. degree in electrical, and the MBA degree in management and entrepreneurship, both from the University of Wisconsin-Madison, in 1995 and 2001, respectively, and a Doctorate in Business Administration (DBA) degree in entrepreneurship and marketing from the Grenoble Ecole de Management in 2013.

Between 1995 and 1998, he was a Senior Scientist with Soft Switching Technologies Corporation, Middleton, WI, where he was involved in the design and development of power electronic apparatus and systems. Between 1998 and 2008, he was founder and CEO of Power Designers, LLC in Madison, WI, where he successfully developed and commercialized a line of advanced high frequency and high efficiency fast and opportunity chargers and battery monitors for the industrial motive power battery market. Between 2008 and 2010, he was the Director of the Florida Energy Systems Consortium at the University of Central Florida. Between 2010 and 2016, he has been with the College of Business at the University of Central Florida where he was a Lecturer at the Department of Management. Recently, he has been the of Advanced Charging Technologies Inc.

Dr. Kutkut has over 20 years of technology leadership and management experience developing and commercializing innovative battery management technologies for motive and stationary power battery markets. He has a wide array of business expertise in the areas business start-ups, sales and marketing strategy development, technology and product development, as

well as extensive technical expertise in the areas of renewable energy power systems, battery charging and monitoring technologies for motive power applications, energy storage systems, and smart grid technologies.

Dr. Kutkut is a holder of 15 issued U.S. and international patents and has published more than 70 papers in leading technical and trade journals.
